

FOR LIBERTY & AGAINST GOVERNMENT CONTROLLING EVERYTHING

In other words, I am promoting the old fashioned conservative principles of individual liberty and free-market economics. Not tax-plundering, top-down, government-manipulated socialism or corporatism, which favors big corporations using big government. Socialism and corporatism put small businesses and farms out of business and negatively affect families, faith, and morals.

James Bartlett for District 6 ND Senate

- Engineer, Teacher, Farmer
- Innovator, Motivator, Reformer
- Bold, Thorough, Faithful

Jim taught engineering for 17 years at NDSU and now directs the ND Home School Association, teaches Christian high school and college courses, and with his family is developing a small diversified farm near Bottineau.

I know why and how to decrease the size and cost of state government intrusion into the lives of individuals and am bold enough to point out the rampant socialism permeating North Dakota politics and institutions. For example, the Communist Party USA points to North Dakota as the best example of socialism, based on our state owned grain elevators and publicly-own state bank.

Vote for Jim Bartlett if you want a voice in Bismarck that will expose the evils of big government socialism and corporatism, and a voice that will fight to return individual liberty and free-market economics to North Dakota, with its secondary effects of significantly lower taxes and fewer regulations that control your life.

CHOOSE LIFE, LIBERTY, AND JUSTICE

OR GET ABORTIONS, EUTHANASIA, GOVERNMENT TYRANNY,
AND PLUNDER THROUGH TAXATION

The senate race in ND District 6 in 2008 will measure how many people in District 6 want socialism and how many simply want the state government to leave them and their money alone. I am fervently opposed to socialism because it destroys individual liberty and economic freedom as well as family values. I am reminding North Dakotans of their American foundations of life, liberty, free-market and limited government.

Did you know that my Democratic opponent for senate in District 6 is 93% liberal according to the liberal ND Progressive Coalition? That the term 'progressive' replaced the politically incorrect term 'communism?' That the Communist Party (CPUSA) endorsed Obama. That my Democratic opponent similarly endorsed Obama? That Marxist ideology dominates the Democratic party nation wide? That socialism is the goal of the communist party, is based on atheism, and justifies the need for government to form society and redistribute your wealth instead of protect the liberties of individuals?

The bottom line is that voting for the incumbent Democratic senator in District 6 will continue North Dakota on its course of liberty losing expensive socialism. Voting for James Bartlett will bring a loud voice to Bismarck for protecting human life at all stages, liberty for each individual, and justice based on the rule of law. He won't hesitate to shake out the status quo good old boy socialists & corporatists wherever they are found.
