

Bartlett for ND Senate Radio Ad Series

Twelve 30 second advertisements to air five times each day, during good times, on Sunny101.9 in Bottineau beginning October 23rd and ending November 3rd. Email to sunny@utma.com

- Positive
- Expressive

I. Limited Government (96 words) BartlettLGov23Oct.mp3

I'm Jim Bartlett, Republican candidate for ND Senate in District 6.

North Dakota government is too big and growing too fast. State government should be limited to protecting people, from bad people and bad government, not changing the way people live or redistributing their wealth to serve liberal agendas.

Vote for me on November 4th if you want to keep more of your tax money, have fewer regulations and protect your liberties.

I approve this message and the web details at Bartlettndsenate.us.

Paid for by my friends who understand limited government and want conservatives to vote.

II. Property Taxes (93 words) BartlettPtaxes24Oct.mp3

I'm Jim Bartlett, Republican candidate for ND Senate in District 6.

Property taxes should be cut drastically by creative local decisions, not by stealing money from others using the force of state law. Property taxes are immoral because, when not paid, they transfer private property to the government.

Vote for me on November 4th if you want to keep your property and tax money.

I approve this message and the web details at Bartlettndsenate.us.

Paid for by my friends who understand that property taxes are immoral and want conservatives to vote.

III. Personal and Corporate Taxes (95 words) BartlettPCtaxes25Oct.mp3

I'm Jim Bartlett, Republican candidate for ND Senate in District 6.

Collecting more personal and corporate income taxes than necessary is legalized robbery and undermines the productivity of businesses, liberty of individuals, and the effectiveness of charities. Stop taxing productivity and North Dakota will attract and see more productive individuals and businesses.

Vote for me on November 4th if you want to eliminate personal and corporate income taxes.

I approve this message and the web details at Bartlettndsenate.us.

Paid for by my friends who understand that income taxes reduce productivity and want conservatives to vote.

IV. Economic Development (98 words) [BartlettEconDev26Oct.mp3](#)

I'm Jim Bartlett, Republican candidate for ND Senate in District 6.

Government meddling in economic development is a socialist trend, which always fails. It fails because business owners are hamstrung by non-productive government regulations, taxes, and timing to pay for those regulations. A free market will always produce the safest, highest quality products at the lowest price.

Vote for me on November 4th if you want to handle economic development yourself.

I approve this message and the web details at Bartlettndsenate.us.

Paid for by my friends who are doing economic development, without tax money, and want conservatives to vote.

V. Life (94 words) [BartlettLife27Oct.mp3](#)

I'm Jim Bartlett, Republican candidate for ND Senate in District 6.

I hold the sanctity of life position, which does not allow abortions or euthanasia under any circumstances. Life begins at conception and to purposely end a life is murder. Quality of life advocates use rape, incest, and mother's quality of life as excuses for murder.

Vote for me on November 4th if you understand that life is sacred.

I approve this message and the web details at Bartlettndsenate.us.

Paid for by my friends who protect life and want conservatives to vote.

VI. K-12 Education (98 words) [BartlettK1228Oct.mp3](#)

I'm Jim Bartlett, Republican candidate for ND Senate in District 6.

The ND Constitution requires that public schools produce students with a high degree of intelligence, patriotism, integrity, and morality. Measuring those goals locally and reaffirming the right of teachers to speak their religious convictions, would reduce the regulatory burdens, and drop property taxes by 40%.

Vote for me on November 4th if you want truth and morality back in the schools.

I approve this message and the web details at [Bartlettndsenate.us](#).

Paid for by my friends who want local family control of education and conservatives to vote.

VII. University Education (97 words) [BartlettUniv29Oct.mp3](#)

I'm Jim Bartlett, Republican candidate for ND Senate in District 6.

North Dakota colleges could serve people better if the radical agendas were exposed to public scrutiny. Agendas such as Marxism, gay rights, feminism, Darwinism, immorality, and globalism undermine our constitutional goals of intelligence, patriotism, integrity, and morality.

Vote for me on November 4th if you want to expose the radical agendas that are undermining families and communities in North Dakota.

I approve this message and the web details at [Bartlettndsenate.us](#).

Paid for by my friends who went to North Dakota colleges and want conservatives to vote.

VIII. Firearms (84 words) [Bartlettguns30Oct.mp3](#)

I'm Jim Bartlett, Republican candidate for ND Senate in District 6.

Defending and restoring gun rights is a freedom issue. George Washington called the Second amendment, "liberty's teeth." The right to keep and bear arms should not be infringed, at all. For liberty, current restrictions need to be repealed.

Vote for me on November 4th if you don't want any gun rights infringed.

I approve this message and the web details at [Bartlettndsenate.us](#).

Paid for by my armed friends who want conservatives to vote.

IX. Free Market Agriculture (93 words) [BartlettAg31Oct.mp3](#)

I'm Jim Bartlett, Republican candidate for ND Senate in District 6.

The good life of freedom and prosperity can return to farmers, ag businesses and the non-farmers. Lawmakers need to vote for bills which return free-market capitalism to agriculture and against bills which redistribute wealth and trap farmers and local communities in the downward spiral of socialism or fascism.

Vote for me on November 4th if you see the value of free market agriculture.

I approve this message and the web details at [Bartlettndsenate.us](#).

Paid for by my farming friends who want conservatives to vote.

X. The Surplus (97 words) [BartlettSurplus1Nov.mp3](#)

I'm Jim Bartlett, Republican candidate for ND Senate in District 6.

The 1.2 billion surplus should not be spent, but returned to the productive taxpayers from whom it came. Spending it, now or later, increases the burden of government by stealing dollars from productive citizens. Saving it results in a loss from inflation.

Vote for me on November 4th if you want to keep your money.

I approve this message and the web details at [Bartlettndsenate.us](#).

Paid for by my friends who know how to manage money better than the government, and who want conservatives to vote.

XI. Healthcare (94 words) [BartlettHealth2Nov.mp3](#)

I'm Jim Bartlett, Republican candidate for ND Senate in District 6.

Healthcare reformers need to question the philosophy of socialism in medicine. Legislators need to protect the free market, which naturally results in the most diverse, highest quality, lowest price health care, because the consumer cares more about his health and budget than the government.

Vote for me on November 4th if you want less expensive healthcare alternatives.

I approve this message and the web details at Bartlettndsenate.us.

Paid for by my friends paying high medical bills, and who want conservatives to vote.

XII. Opposition (109 words) [BartlettOpp3Nov.mp3](#)

I'm Jim Bartlett, Republican candidate for ND Senate in District 6.

My opponent is 93% liberal, I am 100% conservative. He implemented socialism & fascism with your tax money against small business. I stand for much lower taxes, much smaller government, and a genuinely free market, where small businesses prosper. He is pro-abortion for three cases. I am against abortion for all cases.

It is every citizen's solemn responsibility, on Tuesday November 4th, to choose between good and evil in political philosophies.

I approve this message and the web details at Bartlettndsenate.us.

Paid for by those who know that bad politicians are elected by good conservative people who don't vote.
